

## FOSTAC MAXIMUS<sup>®</sup>

The following properties are ascribed to the FOSTAC MAXIMUS<sup>®</sup> :

- Optimises the natural energy flow in buildings
- Harmonises low-frequency electro-smog
- Harmonises external electro-smog in the high frequency band within the active energy field of the device (except disruptions from mobile phone signal beam senders or high tension power lines within 300 m distance)
- Re-polarises watercourses and other geopathic interference fields
- Increases the efficiency of electricity and raises its effectiveness

The FOSTAC MAXIMUS<sup>®</sup> is:

- cost-effective to purchase
- maintenance-free, since it has no wear parts
- environmentally friendly – no additional power consumption
- designed for residential buildings, business, trade and industry – and now available for apartments and offices too
- a product for modern future-oriented people and companies

### Great benefits for all users

A host of users have told us of the following beneficial effects:

- Increase in the energy environment for people, animals and plants
- Increase in personal well-being and improved quality of life
- Improvement of water quality in buildings
- Reduction in power consumption (an average reduction of between 15% and 25% – there may be variations above and below this)
- Optimisation of power generation and increase of feed-in power – e.g. for photovoltaic, bio-gas, wind-power, CHP, water power etc.
- Reduced consumption of fuel – lower fuel costs
- Protection of natural resources
- Outstanding cost-benefit relationship

In addition to all this, there is a right of return after two years with money-back guarantee! \*\*)

\*\*) When accompanied by the Service Report signed by the manufacturer (for units rated 40 Ampere and above), and provided that the conditions contained in it have been observed – please note the general terms and conditions of FOSTAC International GmbH!

**We are convinced that the FOSTAC MAXIMUS<sup>®</sup> is an innovative and intelligent solution for many of the energy problems of our times – with great benefits for all users!**
